You can take pride in Farm Show. It's an innovative approach to coverage of one of the most exciting topics of our times — new farm tractors, implements and other products. A new dimension in agricultural publishing!

Dave Thompson Chicago, III.

Daniel Fanger Kalida, Ohio

Certainly enjoyed reading your magazine. Hope you will be able to have in each issue new equipment and ideas concerning raising hogs, such as the "Weight Krate" in this past issue. How about a page or two on equipment that farmers have designed, or equipment they have redesigned?

Jimmy Ward Tyner, NC

Great first issue. Keep up the good work and best of luck.

Mike Ford Des Moines, Iowa

Enjoyed your first issue. Your cover story was great. Very good idea to get ideas exposed to new areas. Best wishes for your new FARM SHOW.

Lloyd Metz Fairbury, III. I am really looking forward to this magazine for some down to earth coverage oriented to the real farmer instead of the Wall Street Absentee Landowners!

New ideas have always been of interest to most farmers who do a great deal of their own repair work and, out of necessity, design and put together their own needs that aren't yet found on the market.

I have received many calls, inquiries and requests as a result of your FARM SHOW article on my blasting operations. Many farmers were extremely thankful to discover there are other techniques and methods for making ditches and ponds, removing rocks from their fields, and demolishing old silos. Some of them were very surprised and interested in discovering we can do many of these jobs at up to 50% the cost of other processes, such as Caterpillars, etc. Many of the farmers we contacted said your new magazine was one of the most interesting and refreshing new publications they had seen in a long time.
