

Stockings For Your Tractor

Instead of looking for a stocking stuffer for the tractor fanatic in your family, how about giving a tractor stocking? Jennifer Gingell, and some local Metamora, Mich., seamstresses have fabric and patches for many tractor models: Allis-Chalmers, Cockshutt, Farmall, IH, Massey Harris, Massey Ferguson, Minneapolis Moline, Hart, Keystone and Oliver. John Deere fans are out of luck, as Gingell isn't licensed with them.

The 16-in. long stockings are made of cotton, lined with a quilted fabric to give them bulk and topped with fleece cuffs and patches. They sell for \$16.95 retail, but she's offering \$2 off each stocking to Farm Show readers who use the coupon code "Farm Show" when checking out on her website business.

Gingell also sells caps, emblems, tractor theme fabric, handmade tractor quilts (\$450/queen), a full line of tractor repair videos and other items.

Contact: FARM SHOW Followup, Jennifer Gingell, J&D Productions, P.O. Box 38, Metamora, Mich. 48455 (ph 810 664-0992; www.farmtractorrepair.com).

McTavish workbenches feature high capacity, easy roll-out drawers with heavy-duty roller bearings.

Workbench Built To Last A Lifetime

If you've got a tired worn out workbench in your shop or if you are building a new shop, take a look at the heavy-duty workbenches made by McTavish Steelworks. They have easy roll-out heavyweight supporting drawers. The drawers are equipped with large roller bearings and can support 200 lbs. each. The workbench's counter top is 10 ga. steel and can easily support vises and other heavy tools. There is a layer of 1.5-in. thick wood underneath the steel table top that supports the top and makes it quieter to work on. The top drawer is 5

in. deep, the middle 2 drawers are 6 5/8 in. deep, and the bottom drawer is 9 in. deep. The workbench comes in black frame with either red or blue drawers. Some optional colors are also available. It's available in 6, 8, 10 or 12 ft. lengths.

Contact: FARM SHOW Followup, McTavish Steelworks Ltd., P.O. Box 302, Rosnort, Man. Canada R0G1W0 (ph 888 952-3624 or 204 746-6591; sales@mctavishsteelworks.com; www.mctavishsteelworks.com).

Ladder Stabilizer Fits Receiver Hitch

The Monkeyrack is an exclusive product of Monkeyrack Products LLC, providing maximum safety for all extension ladder users. The Monkeyrack is a mobile ladder stabilizer that attaches directly to a standard 2-in. receiver hitch and a Class 1 A extension ladder to provide up to 20 ft. of freestanding height. The Monkeyrack is made of 3/16-in. steel, weighs 55 lbs., and is powder-coated for ultimate strength and sustainability.

The Monkeyrack is versatile and can be used anywhere you have a receiver hitch, whether it's a truck, tractor, heavy-duty maintenance cart, trailer, etc. The heavy-duty strength of the Monkeyrack allows a safety harness to be attached directly to the extension ladder for ultimate fall protection. The Monkeyrack is a 100 percent American-made safety product and is a "must have" for all homeowners. The Monkeyrack ladder stabilizer sells for for \$499 plus shipping.

For additional information, visit the website at www.monkeyrack.com or call 941 747-8697 to order a Monkeyrack.
