

Steel series of hoop buildings is available in 30-ft. wide single hoops, and 30, 38, 42, 50 and 65-ft. wide truss arches.

Silver Stream Shelters - Steel Truss Hoops

Silver Stream Shelters, located near the corner where Minnesota, North Dakota and Manitoba meet, manufactures a complete line of fabric buildings (with either steel or wood hoops), replacement tarps, end panels, doors and more.

“Pride in what we do and the understanding that it is vital to ‘Say what you do, and do what you say’ in all aspects of business is very important to us,” says Darryl Enns, Silver Stream.

“Our current dealer list includes some of the best and brightest people in the industry. Crews are located in 7 states and 2 provinces. Two full time semis and 3 day trucks delivered the 486 shelters that we sold this past year. Our specials are 1-only, when they are booked. You will only see these prices in the Best Of FARM SHOW special edition, not on our website and not in any other paper’s ad. So, call and book fast. They will sell quickly, so do your homework and save,” says Enns.
