

State-Of-The-Art Grain Feeder

Randall Reimer of Cartwright, Man., recently sent FARM SHOW photos of his state-of-the-art Eze-Feeder grain feeder, which is available in several different designs for use on everything from pickups to small tractors and ATV's.

The Eze-Feeder is available in 3 sizes: 45 bu. with a steep 50 degree cone; 70 bu. with a 40 degree cone; and 95 bu. with a 40 degree cone.

"The feeder's 6-in. dia. auger is mounted on bearings for smooth, quiet, and long lasting operation," says Reimer. "The unit's 12-volt electric auger can be remotely-controlled from the cab of the pickup or by pushing a switch located close to the auger discharge."

Over the years, he has added different options such as an 8-in. dia. vertical mixing auger; an electronic scale with 4 load cells and digital read-out; the option of either hydraulic orbit motor or 12-volt electric drive on the discharge or mixing augers; a trailer kit so the unit can be towed with a pickup, ATV or small tractor; Cat. II or III 3-pt. frames for mounting on larger tractors; and a model with pockets to be used on pickups equipped with hydraulic bale beds. The 70 bushel 12 volt electric model sells for \$3,495 USD plus S & H, trailer is extra.

1-in. sq. tubing nearly
1/8-in. thick.

Complete Bench
14 ft. Long
Package includes:
Basic Bench
4 Extra Legs
1 Extension 56-in. Table
1 Stop Rail

Portable Power Bench® Makes Work Easier

Are you tired of working on your knees? Out of space or wanting to get things done faster? Then the Power Bench® can help. The Power Bench is a heavy-duty portable workbench that stores in the size of a step-ladder and rolls on 2 wheels. In less than 1 minute you can set it up, far faster than you can clean off your old workbench. Plus it goes where you want it.

The Power Bench is adjustable in height with spring-loaded pins from 30 to 41-in.

for your comfort. It's extremely durable and the only portable workbench that's strong enough to hold 2 7/8-in. oil field pipe. Ideal for wood or metal chop saws. It makes a great welding table and, by adding plywood, they make a great mechanic's bench or camp table. With your imagination the uses are unlimited.

Watch videos of how easy it works at Lee Unlimited's new improved website at www.powerbench.com .
