

Time-Saving Seed Fillers Mount On Deere Planters

Unverferth CCS Planter Fills make constantly climbing stairs a thing of the past for growers who use Deere CCS planters and drills. Time and labor-saving units are available in either a conveyor or auger model.

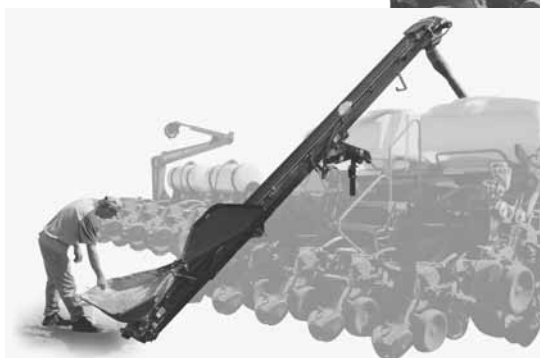

Variable-speed conveyors are 16'x6" and feature a collapsible hopper and a 6" tube with an 8" cupped and cleated belt for gently unloading up to 12 bushels per minute. The conveyor models for planters feature a gas-spring lift-assist for easy lifting and sliding of the conveyor into the middle of the planter for transport. Conveyors for drills store across the rear of the drill within the transport height and width for enhanced roadway safety.

Auger models feature 18 ft. by 6 in. steel-tube construction for enhanced unloading height and strength. Augers are available with choice of three flighting options. Cupped-steel or cupped plastic flighting moves seed at up to 10 bushels per minute. The auger model locks in place for transport efficiency and safety and fits easily within the transport width of the planter.

Conveniently placed dual on/off controls and standard telescoping downspout on both models allow for easy, one-person filling of the seedbox from the ground platform.

Models are available for 1690, 1890, 1990 CCS drills and 1770, 1790 CCS, NT and DB series planters. Growers should contact their

Take Us To Your Barber

We need your help! One of the most challenging aspects of publishing a magazine like FARM SHOW is getting the word out. Here's an idea: When you're done reading this copy of FARM SHOW, instead of tossing it out, why not leave it in a public place where others might find it? Your barbershop, doctor's office, equipment dealership, favorite restaurant, or anywhere else you think people might enjoy it. If you don't want to part with your copy, just send us the name and address of those local establishments (FARM SHOW, P.O. Box 1029, Lakeville, Minn. 55044 or email: circulation@farmshow.com) and we'll send them a couple free issues.

Leaking Oil?

SealLube seal expander is guaranteed to stop any rubber oil seal leaks in engines, transmissions, power steering and hydraulic systems. Problems it can solve include oil leaks of all kinds, and transmission slip. The product is not designed to be used in brake systems. An 8-oz. bottle treats up to 10 quarts of oil. Small motors, pumps, gearboxes, or other applications where there is only a small volume of liquid, can usually be sealed with just a teaspoon or so, either added to the fluid or painted on the seals on the outside. We accept Visa, Master Card, American Express, personal checks, and Money Orders.

Sells for \$14.95 plus \$5.80 for up to 2 bottles S&H. (We have a new post office box for New Tech)
