Latest New Inventions

This 1948 Farmall "H" was modified by a Tennessee innovator to run on ordinary water that's poured into the fuel tank like gasoline.

Water-Powered IH Tractor

Home-built 30-ft. long tractor-boat can cruise down the road at 50 mph or navigate across deep water, propelled by the tractor tires.

This issue's exciting parade of farmer inventions starts right here on the cover and continues on the next page. Good Reading!

Mark Newhall, Editor

"It's safer and a lot easier to use," says the North Dakota farmer who devised this 2-wheel cart for operating his chainsaw.

Chainsaw On Wheels

Amphibious Tractor
