Latest New "Made It Myself" Inventions Born In Farm Workshops

Turned-around IH tractor serves as a powered rear axle on Illinois farmer's combine.
Add-On Tractor Pushes Combine Through Mud

Rolling lift frame lifts cow and then rolls it into trailer for transport.

Down Cow "Lift", Transporter

This issue's exciting parade of farmer inventions starts right here on the cover and continues on the next page. Good Reading!

Mark Newhall, Editor

James Skelton, Edinboro, Penn., mounted a roller mill on the frame of a New Holland chopper to crack high moisture corn and blow it into his silo.

**Roller Mill/Chopper
Blows Corn Into Silo**
