Classic Collections Of Deere Tractors

Kraig Wileman, Edgerton, Wis., collects "numbered" Deere 2-cyl. tractors built from 1952 to 1960.

Both the intake and exhaust pipes are on the right side of this rare 1937 Deere "D", owned by Canadian farmer Brent Campbell.

Kansas farmer Mel Kopf reconditioned 53 Deere 2-cyl. tractors, including nearly one of every model built between 1935 and 1960.

Unique Deere "D" collection includes at least one Model D for every year they were built.
