Combine after treatment

“Color Back” Paint Renewer

Color Back has been putting smiles on customers’ faces for over 25 years.

The clear acrylic liquid, with special chemicals and UV inhibitors, is sprayed on to bring faded paint back to its original color tone and luster and shine. No rubbing or polishing is required. And Color Back lasts for years!

It is pliable, so it can be sprayed over belts, hoses, rubber moldings and most any equipment item but glass. It also rejuvenates faded decals.

Color Back comes in aerosol cans, quarts, or gallons, and is shipped via

UPS ground. A gallon will do the average size, self-propelled combine, or four wheel drive tractor.

Color Back is used throughout North America by implement dealers, farmers, industrial dealers and individual equipment owners.

Contact: Apollo Sales & Service, Inc., P.O. Box 1113, Bismarck, N.Dak. 58502-1113 (ph 800-283-4521; apollo-sales@midconetwork.com). In USA and Canada call for dealers in your area.

Do Friends & Neighbors Borrow Your FARM SHOW?

You probably don’t mind sharing your copies of FARM SHOW with friends, neighbors, relatives or co-workers, but wouldn’t it be nice if they all had their own subscriptions? Now you can “gift” a year of FARM SHOW to anyone and renew your own subscription at a cut-rate price. See enclosed order form or call 800 834-9665 to order.

Trim Trees & Fencelines With Ease

Trimming hedges, brush and small trees is as easy as hopping on your tractor or skid steer with this hydraulic-powered cutter that attaches to a loader bucket.

A hydraulic motor powers an oscillating cam connecting two cutting blades. Changing the hydraulic flow changes the speed of the blades. The 38-in. cutter only requires 3 gal./min. hydraulic pressure and can be adjusted to cut vertically, horizontally, or at any angle in between. It comes complete with a universal mounting loader bracket.

The Sabre Samurai, as it’s called, has been a proven asset for farmers, ranchers, golf courses, orchards, nurseries, & municipalities.

The Sabre is virtually maintenance free with sealed bearings and a self-lubricating motor. “Sickles are easily replaced because they are fastened with capscrews, not rivets,” say Gaudes.

The Sabre was developed in conjunction with the Canadian Research Council’s Industrial Technology Centre and tested by the Prairie Agricultural Machinery Institute, which said, “The ease of operating and adjusting the Sabre was excellent.”

The Sabre Samurai sells for \$1,485 and ships direct from our U.S. warehouse.

Hydraulic-powered cutter attaches to loader bucket.
