The Farmer’s Friend”**

Hard-To-Find Chains Found Here

Finding chain for chain-driven farm machinery is getting tougher and tougher as old companies go out of business and new machinery switches to belts or hydraulic drives.

That’s why business is booming at Farmchains.com. Owner Ken Novak, self-styled “Krazy Ken, the Farmer’s Friend,” says customers can order chains from his website, from the catalog or over the phone.

Novak carries gathering chains, precision roller chains, T-Bar and T-Rod chains, agricultural roller chains, and more. He also carries rare chains like steel detachable.

Now offering heavy-duty chain (up to 6 in. pitch), as well as sprockets in cast, steel, flame cut, and hardened tooth. G & G sprockets and Weldahubs are in stock.

Farmchains stocks and offers best prices on New Holland round baler upper and floor chains. We supply all brands manure spreader aprons, elevator, conveyor and cross conveyor chains, forage wagon and bunk feeder chains.

Contact: Ken Novak, Farmchains.com, P.O. Box 77, Dixon, Ill. 61021 (ph 800 648-5429; fax 815 288-6790; info@farmchains.com; www.farmchains.com).

Wires are inserted into handle of screwdriver and then twisted together for a tight connection.

“Whiz Twister”: A Screwdriver That Doubles As A Wire Twister

Invented by a retired electrician, the new Whiz Twister combines a screwdriver with a wire twisting drive tool. The twisting mechanism is inside the handle.

“It makes twisting electrical wires together a much easier and faster job, producing safe and secure connections,” says Merle Robinson.

The Whiz Twister is designed to twist or untwist up to four 12 ga. electrical wires, and up to six 14 ga. wires.

Robinson has announced updates to the WT-100 wire twister and a new website at www.whiztools.net, where the company

will be featuring other new and innovative products. The Whiz Twister Model WT100 is fitted with a combination screwdriver bit that fits most modern electrical wire fasteners without changing bits. The one bit is designed for #2 Phillip and #2 Square Drive. Other 1/4-in. bits can be fitted to the driver when the bit is removed. The Whiz Twister sells for \$30 (free shipping).

Toilet Vac Sucks Odors Away

“Once it’s installed, you wonder how you ever got along without it,” says Daniel Antepenکو, inventor and manufacturer of the new “Vac-A-Way” device for toilets that sucks odors directly out of the toilet bowl.

The simple device simply bolts in place between the toilet lid and the bowl using the same bolts that hold the lid. A small dia. hose attaches to both sides of the unit under the toilet bowl to a larger hose going to suction fan. A suction fan mounts up in the attic or crawl space and is wired to a wall switch in the bathroom. “It fits all toilets with top-mounted tanks and is so small you’ll hardly notice it. It’s very efficient. You don’t have to leave it on for 10 min. after using the bathroom like with an overhead fan,” says Antepenکو.

Price \$125 any where in the U.S.A. Free shipping.
