

Do-It-Yourself Loader, Backhoe

If you're looking to add a front-end loader or backhoe to a garden tractor, or compact tractor here's the place to go.

P.F. Engineering specializes in backhoe and front-end loader plans that allow you to build these yourself. They also offer a spindle upgrade design to boost capacity of front spindles to 1,000 lbs.

Each set of plans includes a full set of measured drawings showing each part of the loader/backhoe with material dimensions and location of all holes; bill of materials listing all steel, hydraulics and miscellaneous hardware so you know the exact size,

quantity and sources where to purchase; complete hydraulic schematics and a full set of 3D assembly drawings to show you the loader/backhoe as a whole and exactly where each part goes with exploded views included of the more detailed sections.

P.F. Engineering also provides free unlimited customer service by phone or email and is happy to help you with any questions you might have along the way.

The front-end loader plan package sells for \$60, and the Micro Hoe plan package sells for \$85 both with shipping included in the price.

Easy Way To Plug Tire Leaks

The Stop & Go Tire Plugger is now available in an impact resistant hard-sided case. It allows for an 'on the spot' and 'on the wheel' repair to virtually any tubeless tire, and it seals the puncture on the inside.

The Plugger is a spring-loaded gun that 'drives' the plug into the hole. The shaft of the plug expands under pressure to fill the puncture. The mushroom head of the plug seats on the inner wall, allowing no air to escape.

Included is the plug gun, nozzle, probe tool, heavy-duty T-handle reamer/rasp tool, retractable blade, and 25 rubber mushroom plugs that measure 5/16 inch diameter and 3/4 inch long, along with detailed step by step color instructions. Works on Small Trucks & Tractors, Autos, ATV's, UTV's, Mowers, Motorcycles, Golf cars, and many Farm Implements.

Sells for \$49.95 and comes with FREE SHIPPING!

Contact: Stop & Go International Inc., 3610 Thunderbird Ln., Crystal Lake, IL. 60012. Phone: (800) 747-0238 or order online at: www.stopngo.com

Tewco, Inc. Your One Stop Cable Shop Introduces An Exciting New Product!

Tewco, Inc., can supply just about any kind of control cable you might need. Among Tewco's other products are the EZ oil drain valve, and steering linkages.

Tewco, Inc. is now a Master Warehouse Distributor for EZ Oil Drain Valves. Similar to the famous Fumoto Engine Oil Drain Valve, (which Tewco still sells), the EZ Valve offers optional Straight or L-Shaped DETACHABLE Hose Ends to make oil draining more convenient in hard to reach applications. The EZ Oil Drain Valve's forged brass body is Nickel-Plated to provide even more corrosion protection. EZ Valves make oil changes easier, faster, cleaner and safer. There is an EZ Valve available for virtually any application: Cars, Trucks, Farm Vehicles, Boats, Generators and Industrial Machinery. For more information on EZ Valves, contact Chad Salter.

Chad and Paul Pelzek are also available to help with your Mechanical Control Cable and Linkage needs. Tewco has been an Authorized Cablecraft Assembler/Distributor since 1981. They can custom build just about any cable configuration required. Tewco has a \$300,000+ inventory of parts necessary to build Push-Pull, Spool Valve, Brake, Clutch, Throttle, Modulator, Shifter and Unidrum Cable assemblies.

Paul or Chad can have a cable shipped to you in 24 hours or less! If you are located near Milwaukee, Wis., just bring in your

old cable and they will make a replacement while you wait. Cables can be custom built for obsolete controls, as well as for prototypes or even large production orders. Because of the myriad of cable options available, each cable is priced individually. The customer is quoted a price before the cable is built. After three generations of Cablecraft franchise ownership, Chad, his dad and grandfather have seen just about every cable application imaginable! Chad and Paul will work with you to find the right cable for your needs.

Tewco also maintains a large inventory of Linkages, including Rod Ends, Ball Joints, Clevis assemblies, Pivots, Wire Stops, U-Bolts and related parts.
