

Herbal Formula Eases Aches And Pains

Steuart's Pain Formula uses a unique blend of safe, natural pain fighters to help you reclaim your life and get back to the things you love. No burning or irritation (menthol and capsaicin-free); leaves no odor or residue; stops pain fast. Promotes healing, with no side-effects.

Pain Formula penetrates skin quickly to carry a special extract of the pain relief plant (Arnica) and healing stimulation from the herb Comfrey straight to your source of pain. Steuart's Comfrey is grown especially for Pain Formula, and it's extracted using a "first-of-its-kind" proprietary technique. The result is a potent solution like no other for muscle and joint pain; pain sufferers can get back to their favorite activities, stimulate healing, and fight inflammation.

Mark Newhall, Editor, FARM SHOW: "My mother is 88 years old and has a lot of back pain. She and my dad, who is 90, go through about 6 bottles of Pain Formula a year. When my mom's back acts up, my dad massages it with Pain Formula. They tell me they've never found anything else that works even a fraction as well as Steuart's. The direct quote from my dad is, 'I don't know how we would get by without Steuart's Pain Formula.' Gary Steuart has stopped by the offices of FARM SHOW several times, bringing samples of all his products for our staff to try. We're all impressed with Gary and I've never had a reader complaint about his products."

Harry Trafton, Ramsey, Minn.: Harry spent over 40 years working as a stockman in the steel industry, walking on cement day after day. This work took its toll, wearing down the cartilage in his knee.

After Harry tore ligaments in his left knee on two separate occasions, his doctor recommended that he undergo major knee surgery to hopefully avoid arthritis. However, because the surgery removed the cartilage in that knee and left it "bone on bone", he has suffered from pain in that knee ever since. Toward the end of his career, he could barely make it through 8 hrs. of work because of the intense pain in his knee.

His pain limited his work position to Stationary Machine Operator instead of a Mill Runner. He really didn't enjoy being assigned to a stationary machine. "I had problems getting out of the car. I had to hold onto the railing with both hands in order to be able to get down stairs. I could barely walk out of work after my shift," Harry says.

He saw an article about Steuart's Pain Formula in an issue of FARM SHOW. "I was having trouble getting up and down the steps on vacation and decided I'd had

enough. I got home and looked for that issue of FARM SHOW to find the phone number for Steuart's and ordered a bottle of Pain Formula. I'm pretty skeptical about claims...but when I got the bottle, that's all I needed. I was impressed the first time I used Pain Formula."

Harry continues to use Steuart's Pain Formula every few days to relieve his knee pain and also uses it on his back and any other areas that cause him pain. "When my joints get inflamed, I stop it with the Pain Formula. After using the product, the pain might last 10 steps, but then is fine. I'm not in pain."

Mike Kirik, Union City, Penn.: Mike was introduced to Steuart's Pain Formula upon discharge for open heart surgery by a staff person at the Pittsburgh VA hospital. Mike was told to use the product on his chest for pain relief during the healing process. He was able to get relief from the post-surgical pain in his chest plus he now uses it on his arthritic knee.

Daniel Poray, Alexandria, Va.: "I was diagnosed with arthritis in my right leg and knee. I use Steuart's Pain Formula 2X/day and the pain has dramatically gone away and my movement, flexibility and range of motion have increased. The doctor recommended a cortisone shot but I was skeptical. Then I found Steuart's and am glad I did!"

Betty Brooks, Buhl, Idaho: "I put Pain Formula on my knees about 10:00 a.m. this morning, and it's now 9:00 p.m. and I'm still pain-free. I've had knee surgery - and tried

Larger 5-oz. size Pain Formula was largely the result of feedback from FARM SHOW readers who requested a bigger size, says inventor Gary Steuart. Sells for \$34.90. A smaller 1.8 oz. bottle sells for \$18.90. Shipping is free to FARM SHOW readers.

just about every product on the market - and this works. I've had a very good day! I could feel it working as soon as I put it on."

Thomas Lindberg, Two Harbors, Minn.: He says, "I have arthritis pain in my shoulders and back and was having trouble sleeping through the night because of the pain. I read about Steuart's in FARM SHOW and was a bit skeptical at first but thought I'd give it a try. I was absolutely amazed at how well it worked and now use it every day. It works better than anything on the market."

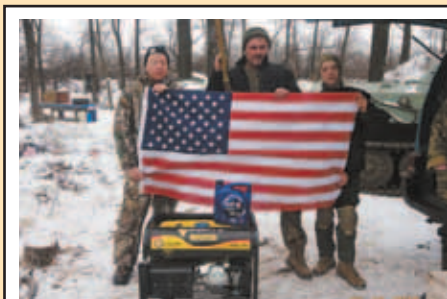

Tom Donelson, Fargo, N. Dak.: He has been using Steuart's Pain Formula for over 2 years. "I give samples to anyone I meet who complains of joint or muscle pain. I've had minor knee surgery and a torn meniscus, as well as a degenerating disc. I originally used to take 2 to 3 ibuprofen a day. But now, after using Steuart's, I'm down to 2 to 3 a week. This product is great for anyone that doesn't want to or can't take drugs to manage pain. One woman I gave a sample to had jaundice in her liver from taking pain medication for arthritis. She's off medication and completely satisfied with this alternative. It's a wonderful product!"

No-hassle Money Back Guarantee

"If you find that Steuart's Pain Formula doesn't give you the relief you need, we want to issue you a prompt, courteous refund - no hassles, catches, or hoops to jump through. You can even use the ENTIRE bottle. Just send back your receipt and empty container, and we'll refund your payment as soon as possible," says Steuart.

Reader Inquiry No. 86

Gary Steuart, at left in photo above, made 3 trips to the front lines of the war between Ukraine and Russia in 2016. He donated cases of wound and pain relief products to troops, who bunk down in reinforced dugouts like the one shown below. He says troops there love American flags because it is a symbol of freedom. His efforts were part of a network of Ukrainians and Americans providing equipment and supplies to the underfunded Ukraine military forces.
