

# The Original Gas-Powered Post Driver Is Even Better...

REDI Driver is the World's original gas powered post driver, developed by Christie Engineering of Australia. The driver has now been on the market and in the hands of operators for over 6 years! The REDI Driver has proven to be so reliable over those 6 years, that we are now happy to extend our warranty to 3 years! The HONDA engine carries a 2-year normal use warranty.

REDI Driver is 100 percent self-contained and eliminates the need for power sources such as air compressor or hydraulics; so there are no more annoying hoses to deal with. One person can easily install fence posts all day long! The handles have a very effective dampening system to keep the operator comfortable. The power pack of the REDI Driver is the reliable HONDA GX35 engine, which is 4 stroke and inclinable to operate at any angle. Drive up to 1,000 posts on one gallon of gas.

REDI Driver now offers 2 models to fit all your fencing needs. 1) The REDI Driver

Classic which has a 2" barrel for t-posts and other smaller posts, weighs only 32 pounds, and offers a powerful 1,720 bpm. 2) The all new REDI Driver Boss which has a 3 1/8" barrel & full size hammer for larger posts, weighs only 35 pounds, and offers a powerful 1,820 bpm. The Boss also includes a reducer sleeve so you can still drive t-posts as well! The Boss is the largest & strongest gas powered post driver on the market!

"We are a family owned and operated business who is passionate about our products and our service", says Lorri Evans from REDI Driver. "You will always deal directly with someone who cares about each and every customer. We stand 100% behind our products, and your satisfaction; so much so, that we offer a money back guarantee!"

Our newest addition to our product line is our exclusive handle extension kit. The kit can be added to any of our REDI Driver

er models. The handle kit adds over 2' of length to the handles, thus eliminating the need for ladders or stools, which increases safety and efficiency! REDI Driver is the only gas powered post driver to offer the option of extended handles.

## Take Us To Your Barber

We need your help! One of the most challenging aspects of publishing a magazine like FARM SHOW is getting the word out. Here's an idea: When you're done reading this copy of FARM SHOW, instead of tossing it out, why not leave it in a public place where others might find it? Your barbershop, doctor's office, equipment dealership, favorite restaurant, or anywhere else you think people might enjoy it. If you don't want to part with your copy, just send us the name and address of those local establishments (FARM SHOW, P.O. Box 1029, Lakeville, Minn. 55044 or email: [circulation@farmshow.com](mailto:circulation@farmshow.com)) and we'll send them a couple free issues.

## Koehn's Unique Livestock Products "Whip Flag" New Way To Move Livestock

New Whip Flag is highly visible to livestock and lets you easily sort animals without handling them roughly.

The Whip Flag consists of a 12 by 13-in. fabric flag attached to either a 50 or 60-in. long, polypropylene-coated shaft. It's available in red, blue, orange, green, or gold. Sells for \$12 plus \$5 S&H.

"Whip Flag" consists of a fabric flag attached to a flexible polypropylene-coated shaft.

## Drive-Thru Electric Gate

The Koehn family began their ag equipment company 40 years ago with this now-famous Drive-Thru Electric Gate.

You can simply drive through the spring-loaded gate from either direction with any vehicle without ever having to stop and open or close the gate. Uses any electric fence controller. One spring on each arm brings them back to position after you pass through.

Sells for \$169 for a 13 to 19-ft. adjustable gate or \$179 for an 18 to 24-ft. gate.
