

Tom Konz drives his 1967 Deere combine in parades, dispensing candy from the discharge auger for kids along the route.

“Candy Combine”

You’ve probably never seen a “parade combine” quite like the 1967 Deere combine driven by Tom Konz in parades last summer.

Instead of grain, Konz modified the combine to dispense candy to kids lined up along the parade route. They stand with their arms raised up as candy rains down on them from the combine’s grain auger that extends out over the sidewalk.

The corn and soybean farmer from Kimball, Minn., bought the old combine specifically to enter in parades. Once he started preparing it for display, he got the idea of using the grain tank to distribute Tootsie Rolls and lollipops. He didn’t have to modify the grain tank or auger.

He took the candy-spewing combine to a handful of parades last summer. He dispenses \$100 to \$130 of candy per parade.

Tewco, Inc. Your One Stop Cable Shop Introduces An Exciting New Product!

Tewco, Inc., can supply just about any kind of control cable you might need. Among Tewco’s other products are the EZ oil drain valve, and steering linkages.

Tewco, Inc. is now a Master Warehouse Distributor for EZ Oil Drain Valves. Similar to the famous Fumoto Engine Oil Drain Valve, (which Tewco still sells), the EZ Valve offers optional Straight or L-Shaped DETACHABLE Hose Ends to make oil draining more convenient in hard to reach applications. The EZ Oil Drain Valve’s forged brass body is Nickel-Plated to provide even more corrosion protection. EZ Valves make oil changes easier, faster, cleaner and safer. There is an EZ Valve available for virtually any application: Cars, Trucks, Farm Vehicles, Boats, Generators and Industrial Machinery. For more information on EZ Valves, contact Chad Salter.

Chad and Paul Pelzek are also available to help with your Mechanical Control Cable and Linkage needs. Tewco has been an Authorized Cablecraft Assembler/Distributor since 1981. They can custom build just about any cable configuration required. Tewco has a \$300,000+ inventory of parts necessary to build Push-Pull, Spool Valve, Brake, Clutch, Throttle, Modulator, Shifter and Unidrum Cable assemblies.

Paul or Chad can have a cable shipped to you in 24 hours or less! If you are located near Milwaukee, Wis., just bring in your

old cable and they will make a replacement while you wait. Cables can be custom built for obsolete controls, as well as for prototypes or even large production orders. Because of the myriad of cable options available, each cable is priced individually. The customer is quoted a price before the cable is built. After three generations of Cablecraft franchise ownership, Chad, his dad and grandfather have seen just about every cable application imaginable! Chad and Paul will work with you to find the right cable for your needs.

Tewco also maintains a large inventory of Linkages, including Rod Ends, Ball Joints, Clevis assemblies, Pivots, Wire Stops, U-Bolts and related parts.
