

“Big Heel” Fastener Holds Wire In Place

WIRE FASTENER – Big Heel Fasteners change the way you maintain your fences. Better than alternative fasteners like staples or tie wire. Big Heel Fasteners can be used on the hardest of posts and holds wire better. They can be used with all types of wires including barbed, bare, high tensile and electrical ground wires, as well as cattle and hog panels, wire netting, horse fence and vineyard wires. The high thick heel “Big Heel” fastener has more surface area on the wire, and holds the wire in place by keeping pressure on the holding area with only one screw. These fasteners will not pull out or rust off. The screw is corrosion coated, has a torx 15 washer head and a cutting tip.

“Battery Maintenance In A Bottle”

Water based patented Battery Equaliser has been proven globally for over 30 years, and it can up to double the life of any lead-acid battery by reversing the built-up sulphation that kills batteries as they get older.

As soon as electrolyte is added to a new battery, sulphation begins coating the lead plates. This causes internal resistance that lowers overall performance, and in a few years, chokes out all electrical activity. Battery Equaliser mixes with battery’s electrolyte, dissolving existing sulfation and preventing new deposits from forming. This also stops build up at the bottom of the battery. Treated batteries will charge faster and hold a charge longer. Ideal for farm equipment, trucks, lift trucks, golf carts, solar, RV’s, all types of flooded batteries.

Battery Equaliser is now available in many Ag retail locations. Battery Equaliser is made in the USA. Retail & Distributor opportunity inquiries are welcome, call 888-851-4431 or visit website. **“Up to 2 million batteries treated globally!”**

Where to Purchase or Mail Order:

• East of Mississippi: Oregon Ag. LLC, 1-877-656-0067

Stretching Device Worn At Night Cures Carpal Tunnel Naturally

Numb Hands? Hand Pain? Hands Wake You Up At Night? Wrist Pain? Sore Thumbs? Chronic Sleep Loss? Dropping Things? Chronic Cold Hands? Clumsiness? Shoulder Pain? Neck Pain? Forearm Pain? More than 20 possible symptoms. Learn more: www.MyCarpalTunnel.com.

Avoid the risks, downtime, scar tissue and expense of surgery. You can heal Carpal Tunnel naturally at home with the Carpal Solution Treatment Kit under the direction of expert doctors.

Developed by medical experts, The Carpal Solution works for 97% of people. Most get relief of their worst symptoms in 3 weeks & complete remission in 6-weeks. Then it goes away for many years. Over 500,000 people have cured Carpal Tunnel naturally. We are confident we can help you too. It is a safe, effective home treatment guided by Doctors. There is no reason to suffer another day.

The 6-week Therapy Kit costs \$102.90 delivered for one hand & \$198.90 for a Kit for each hand. 30 Day Money Back Guarantee – Reimbursed by Health Insurance. One Size Fits All - 28 disposable devices = **Over 220 Hrs. of Therapy.** **4.9 / 5 Stars Reviews.**

To order: Specify Right or Left hand, or both hands.

Call the Hand Experts at: 1-800-798-5210 or 1-801-930-9240 Or send a Check or Money Order to:

First Hand Medical -FS, 1944 E Rua Branco Dr. Suite 233

Sandy, UT 84093 USA - Experts Answer Phones

Or Order securely online: www.MyCarpalTunnel.com

Planter Tool Helps Improve Depth Control

Set-N-Seed is a planter seed depth calibration tool that makes it easy to accurately set your desired planting depth from 1 in. to 2 1/2 in. It comes with a main 1-in. block and multiple 1/2-in. stackable inserts.

Set-N-Seed makes it possible to plant uniformly, even with heavily used disk blades, gauge wheel arms, and rocker arms that could otherwise cause uneven performance.

Using the Set-N-Seed makes it possible to plant uniformly, even with heavily used disk blades, gauge wheel arms, and rocker arms that could otherwise cause uneven performance. By utilizing the Set-N-Seed, variations in disk size and wear will be eliminated with this planter depth calibration tool.

“Uneven emergence reduces the yield potential of late-emerging plants,” said Dave Burgei, S.I. Distributing. “A quarter-inch or half-inch could cost a couple of bushels due to incorrect seed depths.”

Once in the deepest setting, the disc openers will rest on the metal production plate while the gauge wheels rise to the desired depth determined by Set-N-Seed blocks and additional side attachments.

This tool is well-suited for any farmer that utilizes a planter or seeder. Set-N-Seed costs \$185 for one 1-in. main block and multiple 1/2-in. stackable inserts.
