Isomark: Increasing Profitability With Early Infection Detection

Bovine respiratory disease (BRD) is the single largest health issue facing beef cattle. Isomark Health's proprietary technology uses one breath from cattle to reveal changes in their health, if they are pre-exposed to bacterial or viral infections leading to BRD.

Isomark Health's patented breath technology is unique in identifying the body's response to infections within hours of onset, and days before symptoms show, allowing earlier treatment and faster recovery.

In feedlots, breath is captured at the chute in 2 to 5 seconds. The crew is able to proceed as usual while test results are being completed. The Canary-AG™ delivers live results for point-of-care treatment decisions before animals enter the feedlot. Managers can access health reports via Isomark's web app.

In dairies, breath collection is fully automated at the robotic milker. With zero human intervention, "the cows basically test themselves." The Canary-AG™ device provides daily health reports of every cow, so farmers can decide if early intervention is needed to reduce interruptions in milk production.

Isomark's early detection of health changes paves the way for increasing animal performance, reducing use of costly medications, and overall increasing profitability. "That's a win-win for farmers and their herds!" says CEO Dr. Assadi-Porter.

STX Idler

MT Idler

John Deere Idler

Camso Cap KCP3777

"Kile® Clear View® Caps" are designed for rubber track tractors. See the level & clarity of the oil in idlers and rollers.

Kile® Clear View® Caps For Rubber Track Tractors

The patented Kile® Clear View® Caps for rubber track systems are used in farming and construction, replacing steel caps. Operators can easily see the level and clarity of the oil in their idlers and rollers making it simpler to ensure that proper oil levels are maintained.

This injection-molded product is made from scratch-resistant, UV-protected polymer that withstands extreme temperatures and high impact. Kile® Clear View® Caps are made in the USA

and come with a 5-year pro-rated warranty. Kits or individual caps, come with the necessary hardware for installation and instructions.

Kile® Clear View® Cap Kits are available for Case IH STX/ 9300 Series Quad Trac, AGCO MT 700/800, Cat 35/95, Lexion/Claas Track Combines, John Deere 8000 & 9000 T, RT & RX Series, Camso, Delta Versatile, GripTrac, and various grain and planter carts.

Owner/operators are invited to visit

Kile Mfg.'s website for information and prices for the kits, individual caps, product update, and new products. A continually updated dealers list can be viewed on the website. Brochures and more information can be obtained upon request.
